	22	140	530	380	Blue, Natural
	32	200	648	415	Black, Blue, Clear, Green, Natural, Recycled Black, Red, White , Yellow
	52	270	345	418	Black, Blue, Clear, Green, Natural, Recycled Black, Red, White , Yellow
	68	394	648	418	Black, Blue, Clear, Green, Natural, Recycled Black, Red, White , Yellow

When the crates have a lid attached they become stackable units.

The crates are nestable when not in use to save storage space. The tapered sides allow multiple crates to be nested together when they are empty.

The crates are made of industrial strength from heavy duty and durable polypropylene. Making the crates food safe as polypropylene is compatible with the food industry.

The Stack and Nest Crates are Good Environmental Choice Australia (GECA) approved.
